THE CEMENT INDUSTRY IN SOUTH CHINA. THIS

Increasing Consumption.

In the course of his report upon the trade of Canton for 1909 Mr Pratt, the British Pro-Consul, makes some interesting comments on the cement industry, in which the Green Island product comes out very favourably. He begins by remarking that the Chinese Government Cement works began manufacture in 1909, and then goes on to say:-The output of the kilns, eight in number and of Continental make, has not amounted to 50 per cent. of the estimate and the cement is reported to be of very poor quality. A certain amount finds a market in Tsington, but it has not been accepted for use locally in either of the railways under construction in Canton. The price of the cement is about 4 dol. 75 c. per barrel as against 5 dol. 40 c. paid for Green Island (Hongkong) cement. The works being under Chinese official management, it is not possible to discover whether the venture is a lucrative one. The directors have had the advantage of obtaining their materials free of likin."

The majority of coment imported in naturally of Green Island (Hongkong) output, though cement from Haiphong is also now beginning to find a market here. Notwithstanding the opening of the local cement works and the relative cheapness of their cement, the import rose by 50 per cent; and was taken mainly by the two railways under construction. The local article is so inferior that it is impossible to use it on important works.

/ In the same connection it is interesting to note in the British Consular report for Hankow that the price of coment during the past two years was: for coment 1908, foreign 2s. 21d. per cwt. and native 4s. 3d. per cwt.; 1009, foreign 2s 2d. cwt. and native 2a. 7hd. per cwt.; for firebricks, 1908. foreign o 1/5d. per piece and native seventenths of a penny per piece; 19 9, foreign, 1 9Id. per piece and native 1 d per piece. The native articles are from Tangku. Green Island and Haiphong supplied the bulk of the foreign cement, a considerable part of the import this year and last being used in the waterworks installation. A new coment factory at Huang Shih Kang, 30 miles down river, under Government auspices and equipped with European machinery was expected to start turning cu: 360 casks a day from May, 1910.

The death is announced of Commander BOOK EARLY. Edward . Wickham, R.N., son of the late Dr. Wickham, of Tethury, Gloucestershire. Before retiring from the British Navy in 1873, Commander Wickham as w considerable active service. He was a sub lieutenant on board Her Majesty's ship Persons. at the bombardment of Kagoshima, la August, 1863, and as lieutenant of the Barroon was present at the bombardment and capture of the batteries in the Straits of Blimonoseki in the succeeding your.

A DANGER AVOIDED.

(From Our Own Correspondent.)

PORTRAITS OF BURNS.

An important addition has been made to

the National Portrait Gallery in Edinburgh

by the acquision of the colubrated portrait

of Robert Burns by Archibald Skirwing.

This portrait was one of the most cherished

possessions of Sir Theodore Martin, and

shortly after his death the Gallery Trustees

approached his executors, with the result

that its purchase was arranged. The group

of portraits of Burns in the Scottish Port-

rait Gallery, already important, is now

singularly complete. It includes all the

important, indeed all the authortic, port-

raits of Burns extant, for the portraits of

Naismith belonging to the London Portrait

Gallery and Lord Rosebery are versions of

that bequeathed to the National Gallery of

Scotland by the poet's son, and recently

transferred, along with the Naismith full-

length, from that Gallery to the Portrait Gallery. The other likenesses in this

unique group are-the Taylor portrait, the Miers silhouette, and the Reid miniature,

making, with those already named, six

FUTURE AVIATION MEETINGS.

ed that, -owing to the failure of acrial

carnivals there will be no more meetings of

importance in this country on existing lines. The Scottish Meeting at Lanark

shows the smallest deficit, thanks to the

large amount of popular patronage, some 200,000 persons paying for admission; but

the cost of bringing the aviators and their

machines to the ground was very great, and there was a deficit of £8000. One of

the leading specialists, Mr Seymer, says

once seen a man fly, people have no desire

to give up a day's work on the chance of

seeing him fly again;" the only way to arouse interest would be to organise racing

competitions; "as long as an airman has

only a watch to compete with, flying will

In his Paris to London flight, Moisant

jocularly refused to pay for damage done to

turnips by the crowd which gathered round his acroplane. As the matter is sure to

come before the Law Courts, and as many

other cases will hang upon it, it may be

mentioned that that there is a decision in

the Scots Courts against an areonaut in

similar cirumstances. In 1889, Professor

Baldwin made a balloon flight from Edin

burgh; he also came down in a turnip

field; and a jury, on being asked whether

damages could be obtained, replied in the

HENRY DUNNING MACLEOD.

gives a curious personal reminiscence of the

late Mr Henry Dunning MacLeod, and

incidentally illustrates a characteristic trait of many Scots. Mr MacLeod, as you are

aware, was an economic expert, and pro-

pounded the currency scheme for India

which was afterwards adopted without a

word of official acknowledgment. One writer

says," "When Mr MacLeod published his researches. I was sceptical as to the figures, and got into communication with him on

the subject. Conversations of an agreeable

kind followed, and in one of them Mr

MacLeod told me that though his published writings had all been economic, the literary

work dear to his heart was a vindication of

the character of MacLeed of Assynt in the

matter of the capture of Montrose. The

work, however, as far as I know, was never

carried through." This incident is Scottish.

BRITISH IFDIA LINER.

India Steam Navigation Co. inaugurated a

new and extensive building programme,

comprising twelve additional vessels which

were to be added to their already large fleet

of steamers. Contracts for four of these

fast twin-screw passenger vessels were

placed with Messrs Barclay, Curle, and Co.,

Whiteinch on the Clyde. The first of the

four, camed the Chilka, was launched this

week. The new vessel is 403 feet in length,

50 feet in breadth, and 25 feet in depth.

A feature of the vessel is the provision for

1. Covernment and Municipal Convention for the ultimate repayment of principal, at 2. Possibility of Promiums, the smallest affording ample interest on your outlay, the largest constituting a Fortune. 2. Payment of the sum you wish to invest

by cosy insialments. PREMIUM BONDS

give you those opportunities. WHAT ARE THESE BONDS?

They are high-class and absolutely, safe Roy are high-class and absolutely sale securities, payable to beauty, issued by the various Governments and Municipalities of Europe; they are redsomable at periodical drawings, either with Cash Premiums varying from £40 to £40,000, or at the very least, at their full nominal value. EABY PAYMENTS,

We sell those bonds singly or in combine tions of the most of ventageous ones, payable by convenient Monthly Instalments ranging from £1 to £20. We pro the largest Dealers in the world. Write for Hundbook, sent post free MELVILLE, OLYN & Co., Bankers. J. Rus de la Bourse, Paris (France).

2000 native passengers, due regard being had to the susceptibilities of Eastern casto. ODETERS AND STIMULANTA

On the suggestion of Provest Logan, the Town Council of Troon have decided to "have no followship with the unfruitful works of darkness, "-in other words, only tostotal drinks are to be sold to Scottish golf professionals and the spectators at the meeting at Troon to contest the right to play in the " Nows of the World" Tourns. ment in October. People of loose views may think Provost Logan's language rather extravagant; but one must admire the moverely logical character of his pronounce-ment that "those who want alcoholic refreshment are the very people who should not be provided for." There is no room for doubt that it alcoholic refreshment were obtainable only by strict abstriners, the world would be a better and happier place. Perhaps Mr. Lloyd George will embody this principle in his next Budget. aching back, tired limbs, attacks of faintness and headache upon headache need THE MORALS OF ABERDEEN.

secret of the success of

shadow over half her existence.

Roman Catholic clergyman, has brought the 30th September, 1910, commencing at a nest of hornets about his head by his strong criticisms of the morals of Torry,the densely populated fisher district of the city situated on the south side of the Doc. Preaching in the Roman Catholic Cathodral, Father Moany referred to the evils of VALUABLE HOUSEHOLD mixed marriages, remarking that the population of Torry was to a large exout migratory, and therefore seemed to be liable to lapse from the straight path. He painted a lurid picture of a business man who had stated that he would not dare to be seen in Torry after nightfall. He also spoke strongly of the drunkenness which prevailed in the district, and referred to numerous vices which, he declared, lurked in the city generally and Torry particularly. Father Mosny's remarks arose out of the need for a resident priest in the district, the foundation-stone of a Catholic Church having been laid and blessed by Bishop

Father Meany, a prominent Aberdeen

Chisholm the day previously. In an interview, the Father said he was referring particularly to the Catholic section of the community, and declared that the greatest vice amongst the people of Torry was drunkenness. Among the inhabitants of Aberdeen generally, however, the charges are regarded as an attack on Protestantism, and they are indignantly repudiated by leading residents in the district. pains seized me between the back and chest, I suffered with splitting headaches

PERSONALIA. The Duke and Duchess of Connaught and Princess Patricia are in the Island of Arran, the guests of Lord Vernon at his shooting lodge of Dougario.
The Grand Duke Michael of Russia is at

North Berwick playing golf. Mr Baird of Durrie, Kincardineshire, was accidentally shot by his eldest son on the moors. - Fortunately, the wounds are not of a dangerous character. Captain J. G. Leckie and Lieutenant

E. G. Swayne, Army Service Corps, are under orders to embark for Hongkong on September 9. Sanction has been given for an exchange of stations between Lieutenant C. T. Tod. 96th Company Royal Garrison Artillery, Malta, and Lieutenant B. T. Disney, 88th

Hongrong, Finday, September 23, 1910

LAWN TENNIS.

Though the rainy weather of the past understand that tennis is not simply a month has rather upset the arrangements of the athletic world of the to another, but a game of intricate Colony, it has been of great service in | problems, involving as much knowledge enabling grass tennis courts to get into of the flight of a ball under all condicondition for the hard period of work tions as is required in a professional which will get in with the change of bowler at cricket or a base-ball monsoon. Lawn tennis has more de- pitcher. votees than ever in Hongkong and as we can really include in the game, despite is of comes its unexpectedness. Not the occasional rainy spells, all through until a player has reached out to make the year there is little wonder at its a fore-hand return on a ball which popularity. A writer in a Home paper suddenly reverses its direction and recently drew attention to the curious story which can be told of lawn-tennis. he learn the full significance of what a It was popular from its very start, yet it has suffered periods of some eclipse. Patterns on Application. It came in just at the close of the break inches, at lawn tennis it will crinoline period, when dainty ladies were already tiring of the sedate joys of the old style croquet. Very soon after its birth tournaments were organised; by the face of the bat, a tennis ball will it became the fashion to see the chamionships played at Wimbledon, and clubs grew up like mushrooms in a night. Then came the day when the fushionable craze had passed, and small audiences, few but fit, watched the championship games; while tennis-Opposite Central Market. lawns about private houses reverted once more to the condition of flowergardens. Yet tennis was being played better in quiet clubs, but its exponents were a timid race little inclined to combat the open or concealed success at their sport. Earnest cricketers and stern players of football did not conceal their dpinion that the followers of tennis were a feeble folk, who hardly ventured to

allege, as they might well have done

most exhausting of all summer pastimes. | through a long rally and his lungs are They knew of the fascination of play, almost bursting and his sight becoming the gradual development of new tactics | a little uncertain, he is not in a conand formations, the cultivation of dition to attempt the stroke which strokes far more varied than those of though perfectly possible, requires cricket; but only the elect talked of delicacy, and cortainty and a correct appreciation of what the ball itself is doing. Frequently he is only too glad branch of athletics." Then suddenly to got the ball back anywhere and anyhow, hoping that, when the return Tournaments which had been little more comes, it will give him time to stand than lounges with a pleasant garden and hit with precision.

these things. Tennis - passed from

It is said that the run of salmon along the Amur river has been so great that vast numbers of fish were forced out of the the water and are rotting on the banks.

### THE BUILDING COLLAPSE

SCARE. Another Place Condemned

After the recent frequent occurrences of collapses of buildings-four within six are taking no more risks than they can help. There seems to be a pretty pre--valent-process-of-investigation of premisesby the occupants now going on, and already one or two complaints have filtered through to the Public Works Department. The most serious case is one at 72. Des Voeux Boad Central, a four storoyed

building which is at the corner of that thoroughfare and a little bye way known as Chinese Street. The ground floor is occupied as a small shop, while the others are utilised as flats. It is a building of a far more substantial type than usual for a place of its kind. This morning the reabuts on to Chinese Street, was bulging decidedly outwards, and that already the plastering was beginning to crack. The The Grand Council has proposed an police were immediately communicated with, and they in turn informed "the

Public Works Department of the facts. The result has been that the P. W. D. Morals have made a careful examination of the premises and come to the conclusion that it would be unsafe for the occupants to remain in the place. The building was accordingly condemned and the inmates ordered out. Police were immediately posted to the spot in order to suspend pedestrian traffic within the vicinity of the building, and the Public Works Department later commenced to shore up the walls of the condemned premises. A large crowd of Chinese gathered at the scene in expectation of witnessing the collapse.

### V. R. C. AQUATIC SPORTS.

First Day.

Interest in the recent interport swimming at Shanghai has not you subsided in Hongkong and this combined with the additional interest in awimming locally through the acquisition of a bath by the Victoria Recreation Club lent a zest to the annual aquatic sports of the V. R. C. which commenced on Thursday evening with the result that there was a good attendance. The number of open events in the prodynasty in China and has been engaged gramme had also been increased and these were responsible for a great deal of enthusissm. The officials with their customary energy conducted the events in a manner which gave satisfaction to all and as there view to securing the release of the arrested such a satisfactory state of affairs will prevail during the whole of the meeting, it augurs well for the success of the sports this evening and to-morrow. The club were as follows :--

Cotony. Open .- 1st. T. Logan, 14 m. 147 having parted with the queue and adopted The first day's sports opened well with this event. It brought forth six competitors, H. W. Petersen, A. A. Claxton, A. V. Barros, C. J. Cooke and T. Logan. It was a foregone conclusion that Hongkong's latest prodigy, Tommy Logan, would secure the honours but the spects. tors were hardly prepared to see them obtained in such an easy manner. Clarton led at the start with Logan almost level and the other competitors were bunched together. On turning at the first lap Logan was ahead and Clarton soon gave up. As they came up Petersen was

> HONGKONG FOOTBALL LEAGUE.

#### Press Criticism of Referees.

The annual meeting of the Hongkong AN IDEAL PRESENT: Football League was held at the Y.M.C.A. presiding over a satisfactory attendance of GILLETTES' representatives from the various Clubs. Mr A. P. Storrie, secretary, reported

their ten matches. The Buffs were second with 16 points. The Second Division was GILLETTES' was no difficulty over the ground question as in previous years, all the matches being were to able find grounds on which to play all their matches on Saturdays. They never once stuck all through the season for a ground. The services rendered by referees was acknowledged, the Secretary baying that the majority of the teams here played the game in a sportsmanlike manner and the referees really had but very little trouble compared with what they had to contend with at Home. During the season Mr Ellis presented a sup for competition among the

unior clubs. The Chairman described the report as most satisfactory, and expressed thanks THE to Mr Storrie for his services and to Mr Ellis for the gift of a cup. He also outlined the financial position of the League, stating that the season's work resulted in a loss of \$10.90.

The Secretary thought the balance sheet was quite satisfactory when they rememmedals, compared with one in the provious season. The report and accounts were . PRESURIPTIONS ACCURATELY

The election of officers was then pro- PURE DRUGS. ceeded with. Mr Browne was unable to accept the post of President by reason of his shortly leaving for Home, and Mr R Hancock was elected to the vacancy. Mi A. P. Storrie was re-appointed Secretary and Mr A. S. Ellis elected Treasurer. With regard to the commencement of the season, the Secretary stated that the Yorkshiro Regiment would not be here until December 5th, when the Buffs would depart. In face of the thoroughly sports. manlike manner in which the Buffs had acted in football he thought it would not be playing the game if they were not al-

lowed to again enter the League. If they were admitted it would not interfere with the League sesson at all for the simple reason that there would only be ten matches to be played, and if the Buffs started a couple of weeks before the majority of the other teams and also got in a couple of mid-week games with military opponents they would get through all right. Of course the other teams need not finish their fixture until about the usual time.-After some discussion, during which it was stated that the League without the Buffs would be almost a farce, it was decided to admit

the Buffs and permit the season to com-Rec. Goes at mence on October 15th. The following were appointed a sub committee to arrange the fixtures other matters :- The President, the Secretary and Q.M.S. Barnfather. Before the conclusion of the meeting Rec. Goes at Q.M.S. Barnfather complained that as referee in one of last season's matches h

was unfairly criticised in the Press, a writer stating that it was surprising that a sup posedly qualified referee should have been so entirely ignorant of the elementary rule of the game as to give a certain decision. The Press here, he said, criticised the game "as they see it" instead of in accordance with the rules of the game. A referee here had no protection whatever, he could be scandalised by the Press indiscriminately whereas in England he could not. If any thing was wrong with a referee's decisions Rec. Goes at the Association should slate him and not

In the course of a discussion the view was expressed that the Press could not be dealt with at a meeting of that kind. The Press representatives present spoke, the China Mail reporter stating that there were bound to be differences of opinion on to express their views, neither did writers TPROWING THE POLO BALL. Three tries, remedy in giving his version of the matter. J. M. Roza Pereira. R. C. Witchell, The columns of the Press were open to all, and no attempts were made to bolster up one side or to suppress the other. The Press must be given the right to offer candid criticism and most of the representatives

were qualified to do so. The matter raised by Mr Barnfather was totally irrelevant and frivolous. " After further discussion the meeting held that the question was altogether outside its splendid natural harbour makes out Amoy A vote of thanks was accorded the Chairman, and it was stated that the following

Breton, secretary. AMOY'S RECOVERY OF TRADE.

Mr B. G. Tours, His Britannio Majesty's Consul at Amoy, commenting on the trade of that port for 1909, which showed a not increase of £227,998, sees hopeful signs for the future. He says:—It may be hoped that alturning point in the downward career of the port has now been reached, and that Amoy has settled down to the new conditions of trade brought about by the occupation of Formosa by the Japanese and of the Philippine Islands by the Americans. In its former palmy days. Amoy revelled in the Formosa tea trade, all Formosa teas being brought across to Amoy for packing and shipping, there being no facilities in Formosa. But the Japanese very naturally saw no reason why the Formosa tea trade should not remain entirely on Japanese soil, and with the erection of necessary buildings and improvement of harbours in Formosa, the necessity district, and there was a considerable trade. between the two places the American protective tariff in the Philippines has. however, practically killed it. Under the altered circumstances, there-

fore, it remained for Amoy to fall into line with other ports and to take up general trade. That it has done so, and not withont success, is to be seen from the real recovery in the port's trade in 1909. The as a port that cannot be denied, and it is reasonable to prophesy that in the days to come, when the interior of the province will be opened up by modern communica. over £12,000,000. tions, the palmy days of the past, if not even better ones, will return to the port

#### Hongkong, September 23, 1910. Hongkorg Tides.

The tide table given below has been compiled at the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an an tomatic tide-recording machine in the Wa ter Police Basin at Tsim She Tsui during the years 1887-8-9.

The zero of the table corresponds with the zero of the soundings in the Admiralty Charts which has been found to be 4 feet 3 inches below mean sea level. To obtain the depth of water on the blde gauge at the Victoria Naval Yard add 8 feet 4 inches, and on the gange at Lamont

Dock, Aberdeen, add 10 feet 6 inches to the height given in the table.
